AS SENIOR CONSULTANT, PRECEPT PROGRAMME MANAGEMENT, LONDON

(<http://www.preceptpm.co.uk> /now part of Navigant Consulting Inc.)

- Precept Programme Management was a company specialising in expert planning and programming services, dispute resolution, and delay, disruption and acceleration claims. I worked closely with David Barry, one of the leading forensic delay analysts in the UK and a contributor to the Delay and Disruption section in the 9th Edition of 'Keatings on Construction Contracts'.
- **Hong Kong International Airport, Chek Lap Kok, Hong Kong** (www.hongkongairport.com)
Lead Consultant on a major international dispute, scheduled to be resolved in arbitration. Issues

were acceleration and disruption related in a modified FIDIC Contract. My team performed extensive forensic delay analysis to support the client's rebuttal of an £80 million claim by the contractor. The issue was settled in closed meetings before coming to arbitration. Our analysis assisted the Client in achieving a favourable settlement, the terms of which were confidential.

- **Muglad Basin Oil Project, Sudan** Lead Consultant, providing expert planning advice on programming and delay issues in this major international dispute. The matter went to arbitration before the ICC in London, where I assisted the appointed expert David Barry.
- **Manchester Airport Runway 2** (www.manchesterairport.co.uk) Lead Consultant on the team providing expert planning advice to the client in an effort to resolve delay and disruption issues commercially in advance of ICC arbitration in London.
- **Egyptian Media Production City, Cairo, Egypt** (www.empc.com.eg) Lead Consultant providing expert planning advice to a multi-national client in an effort to resolve delay and disruption issues commercially in advance of ICC arbitration. The Contract was modified FIDIC. The project was extensively fast tracked, and involved complex technological requirements.
- **Nathpa Jhakri Hydro-Electric Power Project, India** (www.sjvn.nic.in/projects) Senior Consultant offering expert planning advice to the Dispute Resolution Board in an effort to resolve outstanding construction delay issues. Involved forensic delay analysis on the construction of the tunnel and headrace to the powerhouse in order to clarify issues for the tribunal.
- **More London Development, London** (www.morelondon.co.uk) Programme manager on behalf of the client for a £150m commercial development on South Bank of the Thames, designed by Sir Norman Foster & Partners. Provided expert programming advice and liaison between developer and contractor in an effort to avoid delay and disruption issues.
- **Great Bridgewater Street, Manchester, U.K.** Providing expert planning advice to the main contractor on subcontractor delay and disruption issues prior to arbitration.
- **Inverforth House, Hampstead, UK** Providing expert planning advice on delay and disruption issues prior to arbitration.
- **Westminster & Blackfriars Pontoons, London, UK** Providing expert planning advice on delay and disruption issues prior to arbitration. The purpose of this report was to provide a framework

from which a claim document could be developed by the Contractor in an effort to avoid Liquidated Damages, or recover prolongation related damages.

- **V&A Waterfront vs SA Eagle Insurance Co Ltd, Cape Town** Expert witness on contractual issues, acting for the client, in preparation for litigation in the High Court.
- **London Fire House, Southwark, London, UK** Providing expert planning advice on delay and disruption issues prior to arbitration.
- **Burberry, Knightsbridge, London, UK** Providing expert planning advice on delay and disruption issues prior to arbitration.
- **National Physics Laboratory, Teddington, UK** Providing expert planning advice to the main contractor on delay and disruption issues.
- **Hastings Bathing Water Improvement Scheme, Hastings, UK** Providing expert planning advice on delay and disruption issues prior to arbitration.
